TURKEY ASSURED BY THE BERLIN TREATY

London, July 16.-An official dispatch from the marquis of Salisbury to a minister who remained in London, dated Berlin, July 3th, is published. Lord Salisbury says the icy indicated by the circular with the decisions | tance of two hundred miles west of the Misadopted by the congress. The comparison shows that the object of British policy, namely, the prevention of Russian preposderance, has been substantially attained. Lord Salisbury especially points to the fact that a pecuniary indemnity has been altogether ex-cluded from the treaty of Berlin. The congress having declined to revise any arrangement which is no infraction of the treaty of Paris, it is within the competence of two independent powers to conclude the result of the declaration made by the Russians in congress, that they would neither claim territory in heu of indemnity or prejudice the claims of other creditors. The payment of indemity is postponed to an indefinite and remote period. Salisbury concludes as folows: "Whether use will be made of this probably the last, opportunity obtained for

## BRITISH WHEAT

Now Looks Strong and Healthy-Favor able Weather in Scotland Has Caused a Satisfactory Maturing of the Cereal Crops.

London, July 16.—The Mark Lane Ex-ress says: Wheat now looks strong and ealthy. Wheat ears in certain districts are complained of as puny compared with the luxuriant growth of the rest of the plant, and not well filled with grain. Although the dry atmosphere and sunshine have done wonders in improving the prospects of the crop, it should not cause surprise if the yield on threshing reveals a deficiency, as the excessive moisture from which the plant has suffered has probably left some disease behind it. In Scotland the weather has been seasonable and the offen corp is maturing satisfucoully. Barley does not seem to have sustained so much injury as in England.
Oats are sadly thinned by the grub. Similar advices have been received from Ireland, but it is very disheartening to find that disease has broken out in potatoes, to which the earlier sorts have already succumbed. Should the weather prove wet there is little doubt remains but the keep tubers will be irretrievably ruined. There are unmis-States and Russia, with moderate arrivals at ports of call. The whole number of burial permits sued to-day was forty nine, of which twenty-eight were for persons whose death could be attributed to the heat. This is but a trifle over one-half of the death rate yesterday. The heat this afternoon was more moderate, and to-night there is a fine breeze which has cooled the atmosphere considerably. The whole number of cases treated at the dispensary to-day was about thirty, of which only one died at the dispensary, but of those sent to the hospital, two will probably die. At about nine o'clock to night Drs. Poock and Rogers, practicing physicians of this city, Orange association being, as you designate it, were prostrated by the heat and taken to the dispensary, where they were successfully treated. At the morgue to-day there was the usual scene. Mayor Beaudry and Hon. Mackenzie, prier to the twelfth instant, has caused a sensation. The following are the salient points of the premier's letters. Writing under date of June 18th, he says:

I feel very great anxiety about the maintenance of peace at Montreal on the occasion of the Orange celebration in that city on the twelfth proximo, and would be glad to know what measures you propose to adopt to secure and didn't know what they put in the paper. what measures you propose to adopt to secure the preservation of order on that day. It is to be regretted that any portion of the community should feel it desirable to have party made therein, and said he did not authorize

processions. Of course, I would much prefer in this case, if the parties interested felt disposed to dispense with their procession. They are, however, disposed to claim the right which all persons possess, of appearing this way in the public streets, and I cannot help thinking that it would be a wise course for the authorities of the city to make it known that in the exercise of such rights they will be protected. I feel quite certain that if you feel at liberty to adopt the course I have infect the election was subpensed to come to the customhouse, but asked no questions, and kept me there for three days; they called me to sign a paper, and then swore me; I did not know what they put down; didn't read it to me; can't read myself.
